Dimensions (budget holder, level of contract/systems etc responsibility):

Created/Reviewed date: November 2019

Role Purpose

To provide effective leadership ensure that Aster provides a “safety first” culture and delivers an affordable, profitable, efficient and customer-orientated property management service across all operational delivery areas.

Key Accountabilities

The Aster Property Senior Management Team provides overall leadership of the property maintenance company through the operation of a team of experienced, skilled, flexible and adaptable Directors, Assistant Director and Heads of Service. Each Management team member will hold a number of business portfolios within given regions, some which will involve service provision across the Group. From time to time both job responsibilities and business portfolios will be reviewed and amended by the Maintenance Director to reflect changed business needs.

The Contracts Managers based in Dorset, Somerset, D & C will each be responsible for their specific portfolio areas. However, they will be expected to work closely together to deliver all maintenance services in these geographical regions and will hold joint responsibility to deliver all programmes and maintenance works in the most efficient way possible through a flexible approach to the use of all resources available.

The Principal Surveyors will have responsibility for leading a team of qualified surveyors providing surveying activities and contract administration duties for all maintenance services within their portfolio regions. Surveyors are to be assigned major works and cyclical programmes to deliver and allocated a geographical patch that is aligned to a housing neighbourhood officer, where they will be responsible for surveying any void properties, surveying repairs that have been requested by customers, post inspections, identifying all communal repairs and ensuring these are managed through to completion.
